ABOUT THE DIGITAL TRANSFORMATION HUB

INTRODUCTION:

The Digital Transformation Hub is a dynamic and innovative technology brand dedicated to providing cutting-edge solutions to businesses and individuals. With a focus on creativity, expertise, and customer satisfaction, we specialise in delivering a wide range of tech solutions tailored to meet the diverse needs of our clients.

VISION:

Our vision is to be a leader in the tech industry, driving innovation and empowering businesses and individuals to thrive in the digital age. We aim to create transformative solutions that revolutionize industries and enhance the way people work, communicate, and interact with technology.

VALUES:

Innovation: We embrace innovation and creativity to drive continuous improvement and deliver cutting-edge solutions.

Integrity: We uphold the highest ethical standards and integrity in all our interactions with clients, partners, and stakeholders.

Collaboration: We believe in the power of collaboration and teamwork to achieve shared goals and deliver exceptional results.

Customer-Centricity: We are committed to understanding our clients' needs and delivering solutions that exceed their expectations.

Excellence: We strive for excellence in everything we do, setting high standards for quality, performance, and customer satisfaction

WHERE WE ARE.

FEMTECH AFRICA FOUNDATION LBG geographically operates across Africa however this project focuses on sixteen regions in Ghana, West Africa.

Available infrastructure includes partnership with educational institutions(Girls and Secondary Technical), community centers, and technology hubs.

CHALLENGES

Disparities in quality and accessibility across regions albeit Internet penetration rates that remain uneven, posing challenges for digital literacy initiatives, especially in rural areas.

1. Inadequate internet connectivity and educational resources hinder program delivery and participation.
2. Infrastructure and logistics: Lack of computers, smartphones, UV Dtf printers, Printers(Konica Minolta Bizhub C750i or CANON image PRES V1000), laser engraving and cutting machine, Fiber laser marking machines and Camera(Canon EOS R50APS-C Digital camera).
3. Cultural Barriers: Deep-rooted gender norms and societal expectations may deter women and girls from engaging in STEM education and entrepreneurship.
4. Policy Constraints: Regulatory hurdles or lack of supportive policies for women's empowerment and digital inclusion could impede program scalability and sustainability.
5. Commitment of beneficiaries.

SUPPORT REQUIRED.

Support to capacity building and implimentation of STEM and TVET projects initiated by FEMTECH AFRICA FOUNDATION.

1. Professional services and consultancy support,.
2. Recruitment cost, orientation, training,
3. To identify organizations or donors that can help us procure essential equipments such as:
 - a. Computers,
 - b. Smartphones,
 - c. UV DTF printers,
(Konica Minolta Bizhub C750i or Canon imagePRESS V1000),
 - d. Laser engraving and cutting machines,
 - e. Fiber laser marking machines, and cameras (Canon EOS R50 APS-C Digital Camera).
